

TRONITEC SERVICE DOCUMENT (TSD #38)
829165-R13/059; DISPLAY HEATER CONNECTORS

On older model 829165-R13/059 computer bases, J7 and J8 supply AC voltage to the display heaters on older models of the main sale display boards. Since most of the LCD's on the older model display boards have been replaced with newer, low temperature LCD's, the heaters are no longer required. Therefore, you may receive a newer style computer base that does not have the J7 and J8 connectors. If you receive a newer style 829165-R13/059 computer base, and your displays still use heaters, please contact Tronitec and specify that you need a computer base with the J7 and J8 connectors.

Tronitec, Inc. repairs, refurbishes, and resells equipment made by the original equipment manufacturers.
